## LORTONE BEAVER ARBORS

Lortone provides the largest selection of arbors on the market today.

Beaver arbors are available in two styles those being the **CLASSIC** and **STAINLESS STEEL**. The **CLASSIC** arbors are constructed of powder coated mild steel. The new line of **STAINLESS STEEL** arbor are constructed of 18-8 stainless steel wetted parts - **NO RUST** under normal usage.

Steady, durable two, four and six wheel arbors with 3/4" threaded shafts are ideal as starter units or complete cabochon machines. Use these arbors to custom build your own machine, using your choice of drum or wheel for grinding or sanding. End of shaft is threaded to accept 1/4 - 20 screwed disc. Rubber mounted sealed ball bearings and full hinged tops on classic units with removable tops on stainless steel units for easy access for maintenance. Complete with spacers, wheel flanges and shaft nuts. The motor supplied with the motorized version is 1/3 Hp, 115 VAC.

**ATTACHED WATER FEED SYSTEM:** On any Lortone Beaver Arbor, parts for an attached water feed system can be supplied (See photo above). Each system includes a one (1) quart plastic tank, mounting bracket for the tank, tubing, tube fittings and individual valve for each wheel/drum. To include this option add a suffix of **WFS** to the part number. The additional cost for this option for a 2 wheeled arbor is **\$75.00**, 4 wheeled arbor **\$100.00** and 6 wheeled arbor **\$140.00**.
