## LORTONE COMBINATION UNIT, MODEL **LU6X-130**

This popular complete combination unit can complete each step from rough to finish cabochons in one compact, durable and economical machine. Sealed rubber mounted ball bearings and 3/4" shaft shouldered to 1/2" for the 6" trimming blade. Hinged wheel guard shield for easy wheel access and cleaning. Unit is designed with saw blade coolant tank, blade guard, water fittings and drain plugs, 1/3 Hp. Motor, 115 VAC, motor mount, pulleys, belt, belt guard clear plastic splash hood over trim saw, trim saw vise, cab templates, aluminum scribe, cerium oxide polish, dop sticks, dop wax, 6" X 1" 100 mesh silicon carbide grinding wheel, 6" X .025" diamond saw blade, 6" X 2 1/2" Lortone EXP sanding drum, 3 silicon carbide sanding belts and one polishing disc with rubber and felt pad installed.

This is a great introductory unit for the lapidary arts!!!!

**LU6X-130**

**LORTONE**

MLS Part #: 260000

Price: \$770.00

Totally reengineered in 2010. Faster cutting, very quiet operation. New larger motor. Motor is isolated from the vibrating portions of the lap. Power is transmitted from the motor to the pan via a rubber v-belt.

## VIBRATING/OSCILLATING FLAT LAPS

Flat vibratory/oscillating laps are used to polish flat surfaces on rocks. We feature the Lortone brand but also handle several other brands of vibratory laps including Covington, Raytech and Diamond Pacific.

The Lortone laps are rugged vibrating laps for fast precision grinding of slabs, geodes, bookends, clock faces and other flat stones. Pans change in seconds. Quiet, fast and efficient trouble free operation; ideal for the hobbies. Both units come with 115 VAC motors standard.

**VI-BRO LAP**

**DIAMOND PACIFIC** - VI-BRO-LAPS brand flat laps are industrial grade equipment. The tempered aluminum lap plate is grooved in a crisscross pattern. This permits abrasive particles to circulate between the lap plate and the work piece so that the abrasive itself is continuously being crushed to a smaller size. When the work piece surface is ground flat and satin smooth, the lap plate is turned over to the other side on which a polishing pad is cemented. Using a polishing compound on this pad, a fine mirror like finish is produced on the work piece.

The unit is constructed from a heavy duty welded steel frame. The grinding plate is suspended by aircraft strength cable. Unit is driven by a 1/3 Hp. Motor, 115 VAC.

MLS PART NUMBER	EQUIPMENT DESCRIPTION	PRICE
<b>251000*</b>	<b>FLAT LAP, Diamond Pacific, Model 20VL, 20" Dia.</b>	<b>\$2,150.00**</b>
