MADE IN THE **U.S.A.** BELTS!!!

Diamond belts last many times longer than silicon carbide belts. (Sometimes up to 50 or more times longer.) There is also much less mess with diamond belts. Diamond belts also cut much faster than silicon carbide belts. Also please note that the finish is different on the 2 different type belts. **As a rule of thumb a 600 Mesh Silicon Carbide belt produces the same finish as a 1,800 Mesh Diamond Belt.**
